

Syllable Fun... Box Syllables

Main purpose - To identify those words can be broken into 'chunks' or 'beats'.

Put boxes or buckets at the front of the class labelled with the numbers 1 - 4. Give the children a cuddly toy (you can use everyday objects) and ask them the name of the animal. When they can name the animal they have to tell you how many syllables are in the animal's name. They then have to throw or race and put the animal in the appropriately labelled box/bucket.
